Subject Index

A

Accreditation
compliance with "Category A Elements of Performance," (3):180
JCAHO survey readiness, (4):291
Activated clotting time, femoral sheath removal, (1):34
Activities of daily living, functional status of nursing home residents, (1):58
Acute care
nursing work life, (3):269
roles of nurse aides and family members, (2):169
Age/aging, healthy, RN's role, (4):305
Applied informatics, (2):100
Assisted living facilities
quality concerns, (1):8
residential care facility quality instrument, (1):48
Audit, auditing for HIPAA privacy compliance, (2):105

B

Barriers, research initiatives in rural setting, (2):162
Behavioral health, quality improvement, (3):197
Bladder volume, ultrasound bladder scanner, (3):188

C

Cancer care, outpatient, improving patient satisfaction, (3):226
Cardiac catheterization, femoral sheath removal, activated clotting time levels for, (1):34
Cardiac surgery, pulmonary complications, (2):95
Clinical practice guidelines, Ottawa Model of Research Use, (1):18
Collaboration, JCAHO survey readiness, (4):291
Communication
nursing home staff's perception of, (3):242
parent communication preferences, (3):253
Community health, nonpharmacological strategies for heart failure, (4):349
Compliance
auditing for HIPAA privacy compliance, (2):105
"Category A Elements of Performance," (3):180
Confidentiality, auditing for HIPAA privacy compliance, (2):105
Continuing education
auditing for HIPAA privacy compliance, (2):105
Ottawa Model of Research Use, skin care, (1):18
quality improvement in behavioral health, (3):197
ventilator-associated pneumonia, (4):328
Coronary angioplasty, femoral sheath removal, activated clotting time levels for, (1):34
Cost-effectiveness, nurse midwifery care, (4):361
Cultural issues, role of family members in acute patient care in Taiwan, (2):169
